

PROMAR TROPHY SERIES COLLAPSIBLE LANDING NETS

\$25-55 // www.promarnets.com

Landing nets are mission-critical equipment but often take up a lot of precious space. Not Promar's Trophy Series. These cleverly designed nets with telescoping handles not only fold in half

at the yoke, the flexible frames collapse into a tidy stowable package.

Improved in recent years, the easy-to-deploy nets feature catch-and-release-friendly knotless nylon mesh. Sizes range from the trout-sized 16" x 16" to a halibut-worthy 24" x 24".—PAUL LEBOWITZ

PRO: Stows out of the way until needed.

CON: Larger models require two hands to deploy.
